

SCHULTZE ASSET MANAGEMENT, LLC

Schultze Asset Management Founder George Schultze Delivers Market Insights at GAIM Conference

PURCHASE, NY - July 8, 2014 - George Schultze, Founder and Managing Member of Schultze Asset Management, LLC ("SAM"), was a key speaker during the recent 20th Annual GAIM Alternative Investment Conference in Monaco.

During GAIM's "Opportunities in Fixed Income Investments" panel, Mr. Schultze provided valuable insights for global investors about the risks present and opportunities available in today's fixed income market. In light of today's ultra-low interest rate environment, he discussed the best way to position a portfolio to take advantage of the likely future direction in the fixed income market.

Separately, Mr. Schultze was voted by a panel of judges as the overall conference winner of GAIM's Quickfire Manager Showcase wherein he communicated Schultze Asset Management's unique edge and investment strategy.

Mr. Schultze commented, "Today's fixed income market provides unique opportunities for nimble asset managers with a specialized niche expertise. Going forward, it makes sense for fixed income investors to maintain low duration exposure, if necessary, but also to consider opportunities in event-driven equities and in short-selling. Time will prove that it's difficult to make good returns by blindly investing long in today's fixed income market."

Global Alternative Investment Management (GAIM) sponsors one of the world's largest international alternative investment events each year and its 20th annual event last week was well received by the investment community.
